جاليتراب

Neat, compact and practical alternative to traditional gullies Incorporates fixed baffle with removable access plug, 3 x 110mm side bosses Square cover and frame ensures perfect fit when used alongside paving slabs  
2 alternative types:

- a) All bosses closed (4D.900)
- b) With 110mm back boss open (4D.901)

Advantages:

Body of the Gully can rotate by means of a push-fit joint: assists the installer with unpredictable conditions on site  
Bottle Gully Riser 4D.916 enables Gully to be installed at invert depths of up to 600mm 3 no 110mm side inlets (blanked off), 1 either side and 1 at the back of the Gully, enables side connections of pipe Easy access for rodding is provided by means of a removable rubber access plug 2 special covers available, both secured to Gully by means of 4 self tapping screws:

- a) Plastic Sealed Access Cover 4D.915
- b) Ductile Iron, Open Grating 4D.919
